

Dear FCC:

I am sending in this comment in regards to the proposal that would allow for Low Power FM stations to take priority over current FM translator services. I disagree with this proposal because I listen to a variety of FM translators in my area and across my state. For instance, I listen to the KLOVE and Your Network of Praise translators each and every day. As a resident of my community, both of these networks provide me with a positive listening experience with clean content, and current local, national, and worldwide news. If the current proposal were to pass, these networks would be displaced by LPFM broadcasters that would provide other programming, that would not or may not contain the same content, of which myself and my community listens to. I believe that the services provided by KLOVE and Your Network of Praise is in the public interest because of the content that they provide as noted above; a positive listening experience with clean content, and current local, national, and worldwide news. Please take my comments into serious consideration. I do not want to see the LPFM stations take over the current FM translators that I listen to. Thank you in advance for your consideration. I look forward to hearing of your final decision in this matter.

Sincerely,

Voni Jump
Kalispell, MT
